Feedback from this workshop

The group suggested that any info which needs to be put across to the wider community - could we please have it / or some of it - in the form of video clips

The group will look through the proposed list of stakeholders to try and ensure everyone who should be represented - will be :) Ensure all communities / groups of people have a key representative

The group worked together on the wording of an advert for the echo and on the logo to ensure the right messages went out to the community

Can we get ahold of the videos made by the man who came along with Eric Green and recorded the last events?
